DETAILED ACTION

Drawings

1. The subject matter of this application requires an illustration by at least one drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over (Mezei et al or De Lamberterie) in view of Redick. (Mezei et al or De Lamberterie) discloses the claimed invention except for the teaching of a light pipe being polished. Redick teaches a light pipe 28 having a polished finish. It would have been obvious to one skilled in the art at the time the invention was made to modify the light pipes of (Mezei et al or De Lamberterie) so as to include a polished finish as taught by Redick in order to efficiently transmit light. Note the recitation of "function as a table lamp or a floor lamp, but it could

be hung on a wall" is merely intended use language and the light pipes of (Mezei et al or De Lamberterie) are capable of being used for those purposes.

Response to Arguments

4. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection. Applicant's arguments regarding the drawings are not found persuasive. A drawing showing at least one embodiment of applicant's invention is required under 37 CFR 1.81(c).
